

TACTICAL AND SUSTAINMENT SERIES

LASER MARKSMANSHIP TRAINING SYSTEMS

130 System used in a room clearing exercise by U.S. Army soldiers

Law enforcement officers use the 115 system in a tactical exercise

Equally at home in elite military forces as they are in practical shooting events, BEAMHIT's Tactical and Sustainment Series is designed for advanced small arms training in a variety of real time situations. They provide the shooter with both instant visual and audible feedback and build both repetitive shooting skills and muscle memory, vital for accuracy. The core of this system is built around the TR-700 target, a completely mobile, self-contained targeting component that can operate on either AA batteries or AC power adapter. Used by competition/recreation, law enforcement and the military, elite target shooters have also found their place among the four unique versions of a system that take shooters from the fundamentals of shooting all the way to combat survival skills.

KEY ADVANTAGES

- Train anywhere, anytime
- Saves ammunition costs
- Portable, enabling you to use it anywhere
- Positive and fun teaching tool
- Safe to use in the privacy of your own home
- Tested and proven to make you a better shot
- Connect multiple targets together for integrated timer and tactical room clearing

TACTICAL AND SUSTAINMENT SERIES

LASER MARKSMANSHIP TRAINING SYSTEMS

110 TACTICAL AND SUSTAINMENT SYSTEM

Without the high cost of ammunition and the other inconveniences associated with live-fire range training, the 110 System is ideal for serious competitive shooters in building muscle memory and fine-tuning their skills. Using their own weapon, the 110 system allows shooters to train in the comfort and safety of their home and to attain the same results they achieve at the range. The 110 System incorporates the TR-700 target and the highly dependable, lightweight LT-100C laser, LR44 batteries, and three distance target masks. Laser rods and sleeves sold separately.

- Target can be engaged over 40 meters
- Portable electronic marksmanship trainer
- LT-100C laser fits any gun in conjunction with the proper transmitter rod
- Built-in timer function with digital shot counter

115 TACTICAL AND SUSTAINMENT SYSTEM

Using BEAMHIT's only internal laser, the LTX laser, the 115 System is the preferred choice of law enforcement professionals. The 115 System's LTX internal laser fits a wide assortment of handguns, including 38, 9mm, 357, 40, 44, and 45 caliber weapons. It allows shooters to work on their presentation from the holster and to train for shoot/don't shoot training scenarios, close quarter combat drills, and any number of simulated law enforcement training scenarios. The 115 System incorporates the TR-700 Target and the LTX Laser, and three Distance Target Masks.

- LTX laser fits inside the barrel to allow for 'from the holster' training
- Laser is concentric to barrel for proper alignment
- AC power adapter and AA batteries give flexibility to target placement

130 TACTICAL AND SUSTAINMENT SYSTEM

The 130 System stands at the pinnacle of this series and is the preferred system of all U.S. military forces and many foreign governments, police and security forces. Built around the MP-400B Laser, this portable and easily deployable system includes the LTA-556 Transmitter Rod for use in the M-16 and other similar caliber weapons, the LTA-380-2 Transmitter Rod that allows external use of the MP-400B Laser in a variety of handguns, and the E-Type Silhouette Mask Set.

- Remedial and sustainment training
- Used in exercise 2 of the army M16 course of instruction
- Target masks represent E-type Silhouettes from different distances
- Can be used with both the M16 rifle and M9 pistol
